SPEAKER ADAPTERS

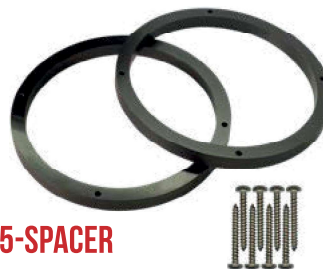

5 Year Warranty

IP-6x9-SPACER

1/2 Inch 6x9 Spacers

These spacers are the exact footprint of a standard 6x9 basket, allowing them to be used in lids where regular car audio-type 6x9 spacers will not fit. These spacers are lifesavers!

IP-6.5-SPACER

1/2 Inch Spacers for Lower

These spacers are sized specifically for Harley lowers. Allows the speaker grill to sit flush.

IP-14PFK

Horn Adapters for Gauges 2014+

locate 2" compression horn tweeters in your small gauge locations on Street Glides, Road Glides, and Electra Glides.

IP-13-5X7-6X9

'98-'13 5x7 to 6x9 Adapter Kit

Convert factory 5x7 lids to big bad 6x9 speakers. CNC machined in the USA Bestseller

IP-14-5X7-6X9

2014+ 5x7 to 6x9 Adapter Kit

Convert factory 5x7 lids to big bad 6x9 speakers. Now works with CVO Electric Locks or non-electric lock bikes.

PLUG & PLAY HARNESSES

5 Year Warranty

2014-2023 Factory Radio T-Harness

The all in one solution to pull signal out of the radio and provide speaker wires for your aftermarket amp utilizing the factory speaker wires.

WH-14-PNP-F

2014+ RCA Adapter for Factory Radio

Connect the radio's speaker out to DSPs and amplifiers with RCA inputs. Order part# WH-14-PNP-R for rear.

WH-SBB

Plug & Play Rear Speaker Wire Harness for Lids

Serviceable connections at the amplifier, both bags, both lids, and both speakers. This harness is the premium option

WHK-44AH

Saddlebag Amplifier Wiring Kits

Saddlebag Amplifier Harness preconfigured for 4 channels of signal.

WH-14-SH-NOCB

2014+ Power & Ground Plug & Play

2 amp power is perfect for DSP modules. Compatible with all bikes not equipped with factory CB radio.

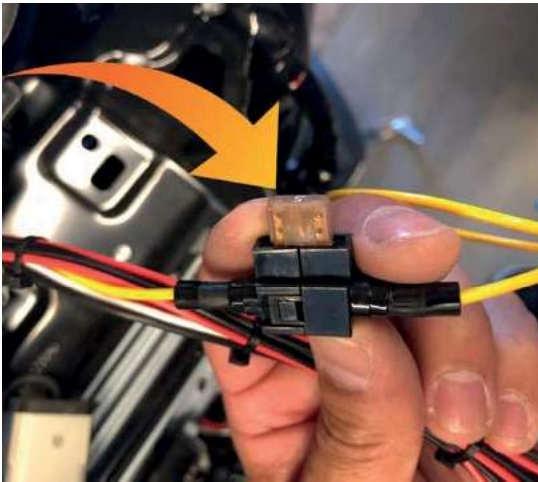

WH-14-ACC

Plug & Play Accessory Power in Fairing

Compatible with all bikes not equipped with powered antenna in fairing. Perfect for amp turn-on and DSP.

OPTIONED OUT MODULAR PLUG & PLAY

SADDLEBAG WOOFERS

5 Year Warranty

IP-AP80-LR

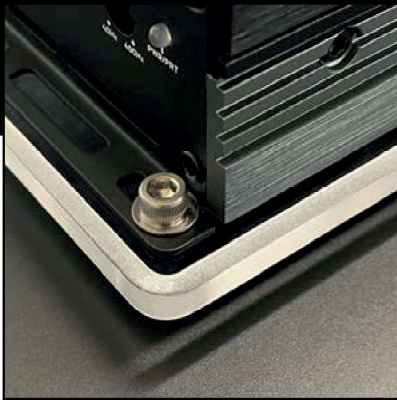

8 Inch Bag Woofer Kit

Aggressor Pro 80 comes as a left and right side kit and places one woofer in each bag. Precision CNC machined mounting kit with all stainless hardware, router templates and steel grills.

AMPLIFIER MOUNTING RACKS

5 Year Warranty

SADDLEBAG OR Tour Pack

Easy Install and Great Looking

Now adding an amplifier to the bags is simple. Our Bond-in rack system does not require any mounting holes to be drilled into the bag. This system uses a small 1/2" thick mounting pucker that gets epoxied into the bag. The acrylic mounting rack then bolts to the mounting pucker. This makes the entire assembly serviceable and gives you space under the amp to hide wires and connections.

RGB Lighting

Optional LED lighting allows you to show off your installation. This module can be wired for many different solid colors or it can be used with any standard RGB LED controller.
