INSTALLATION TOOLS & TIPS

Alcohol based cleaner
& microfiber towel

Gloves

Sharp blade or
scissors

Roller

1. Clean metal surfaces with an alcohol-based cleaner. Allow to dry completely.
2. Unroll SoundSkins. Measure and cut the needed size with a sharp blade or scissors.
3. Start applying from the top, pressing down with a roller to avoid air pockets.
4. Puncture any air bubbles with a razor blade and press down for better adhesive contact.
5. Ensure fastening hardware holes are unobstructed.

Soundskins Pro Door Kit

PN: SS-PRO-1

- 3 in 1 material using acoustic closed cell foam, foil & pure butyl rubber
- Reduces sound and vibration up to 50%
- Provides a layer of insulation with an R-value of 3.12 per inch!

Specifications

THICKNESS	.18"
MATERIAL	.12" acoustic foam .059" butyl & foil
ADHESIVE	High level pure butyl compound
SHEET SIZE	20" x 79"
COVERAGE	11 sq ft

Soundskins Pro Plus Workshop Kit

PN: SS-PROPLUS-1

- The same 3 in 1 SoundSkins Pro material but in an extra large workshop roll!
- Perfect for big projects such as van and semi truck installations, full installations (doors, floors and trunk), and more!

Specifications

THICKNESS	.18"
MATERIAL	.12" acoustic foam .059" butyl & foil
ADHESIVE	High level pure butyl compound
SHEET SIZE	29.5" x 315"
COVERAGE	64.5 sq ft

Soundskins Classic Bulk Kit

PN: SSK-CLASSICBLACK

- Your OG sound deadening material, but with BETTER performance, guaranteed!
- Black and silver foil with a diamond embossing pattern
- Excellent vibration reduction properties for increased comfort and quiet

Specifications

THICKNESS	0.0787"
MATERIAL	Pure butyl & foil embossed black and silver foil
ADHESIVE	High level pure butyl compound
SHEET SIZE	23.6" x 236"
COVERAGE	38.75 sq ft

Soundskins

Classic Sheets

PN: SSK-CLASSICSHEETS

- ☐ The perfect way to create an air-tight seal from sound, weather, and heat
- ☐ Easy to cut sheets, conform to any shape, and fit into most tight spaces
- ☐ Our thinnest and most affordable sound dampening material

Specifications

THICKNESS	0.0787"
MATERIAL	Pure butyl & foil embossed black
ADHESIVE	High level pure butyl compound
SHEET SIZE	23.6" x 29.5", 8 sheets per box
COVERAGE	38.75 sq ft

Soundskins

Wavy Foam

PN: SSK-WAVY

- ☐ Reduces sound and echoes, while absorbing rattles and vibration
- ☐ Put inside your door panels, on rear decks, and more for sound reduction
- ☐ Waterproof, durable, and easy to shape for a clean, long-lasting fit

Specifications

THICKNESS	.315"
MATERIAL	Rubber foam
ADHESIVE	Pressure sensitive adhesive
SHEET SIZE	23.62" x 196.85"
COVERAGE	32.3 sq ft

Soundskins

Wavy PLUS

PN: SSK-WAVYPLUS

- ☐ Reduces noise and vibration with thicker, premium sound-insulating foam
- ☐ Installs inside doors, rear decks, and more to improve cabin sound quality
- ☐ Our thickest, most effective sound insulating foam yet!

Specifications

THICKNESS	.984"
MATERIAL	Rubber foam
ADHESIVE	Pressure sensitive adhesive
SHEET SIZE	19.69" x 196.85"
COVERAGE	26.92 sq ft

Soundskins Heat Shield

PN: SSK-HTSHLD

- Thick thermal acoustic insulation fiberglass foam that blocks heat & absorbs sound
- Place under your hood and firewall to block out heat for a more comfortable drive
- The aluminum foil face will reflect radiant heat

Specifications

THICKNESS	.39"
MATERIAL	Rubber foam, fiberglass, aluminum foil
ADHESIVE	Pressure sensitive adhesive
SHEET SIZE	39.4" x 197"
COVERAGE	53.8 sq ft

Soundskins Foam Tape

PN: SSK-TAPE

- The perfect way to create an air-tight seal from sound, weather, and heat
- Easy to cut to size, conform to any shape, and fit into most tight spaces
- Great decoupler to directly isolate noise and vibration

Specifications

THICKNESS	.12"
MATERIAL	Rubber foam
ADHESIVE	Pressure sensitive adhesive
SHEET SIZE	4 rolls, 1 roll: 2" x 393.7", 1 roll: 1" x 393.7" 2 rolls: 0.5" x 393.7"
COVERAGE	10.8 sq ft

Soundskins Silent Strip

PN: SSK-STRIP

NEW SIZES AVAILABLE!

- Creates a tight seal to block noise, moisture, heat, and cold
- Flexible foam decouples panels to stop rattles and vibration
- Waterproof, heat-resistant, and durable for long-lasting performance

Specifications

THICKNESS	.12"
MATERIAL	Rubber foam
ADHESIVE	Pressure sensitive adhesive
SHEET SIZES	SSK-STRIP: 0.375" x 17', SSK-STRIP1/2: 0.5 x 17' SSK-STRIP3/4: .75" x 17', SSK-STRIP1: 1" x 7'
COVERAGE	0.54 sq ft

Soundskins

Rings V3

PN: SSK-RINGSV3

- The FIRST speaker rings in the market that can fit ANY speaker, ANY size or shape!
- 6 strips that seal your speakers to the door trim, directing sound into your cabin
- Includes 4 wave foam backing sheets to cancel backwaves & improve midbass/bass response

Specifications

CONTENTS	6x Strips + 4x Foam Sheets
DIMENSIONS	27" L x 0.79" W x 1" D
MATERIAL	Acoustic closed cell rubber foam
ADHESIVE	3M laminating adhesive

Soundskins

Sound Quality Speaker Kit

PN: SSK-SQSK

- Enhances speaker performance by sealing gaps for tighter, more accurate sound
- Eliminates panel vibration and distortion for cleaner audio at any volume
- Includes 2x Pro Sheets, 2x RingsV3, 2 Baffles and 3 ft of our 3/8" Silent Strip!

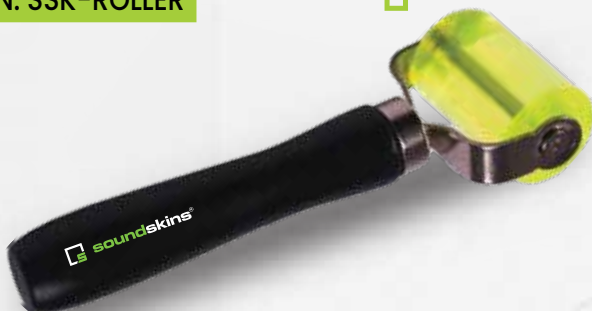

Specifications

THICKNESS	1" ring, 0.71" sheet, 0.31" baffle, 0.12" strip
MATERIAL	Closed-cell foam + butyl & foil
ADHESIVE	Pressure-sensitive, pure butyl compound
COVERAGE	2.5 sq ft

Soundskins

Roller

PN: SSK-ROLLER

- Required for every sound deadening project for proper installation
- Helps install SoundSkins on both smooth and uneven surfaces for the best results

Specifications

DIMENSIONS	6.9" x 1.4" x 1.4"
MATERIAL	Polyurethane rubber, wood, steel
WEIGHT	4.903 ounces

VEHICLE SPECIFIC KITS

We did most of the work so you wouldn't have to...

Introducing our lineup of vehicle specific sound deadening kits made from SoundSkins Pro.

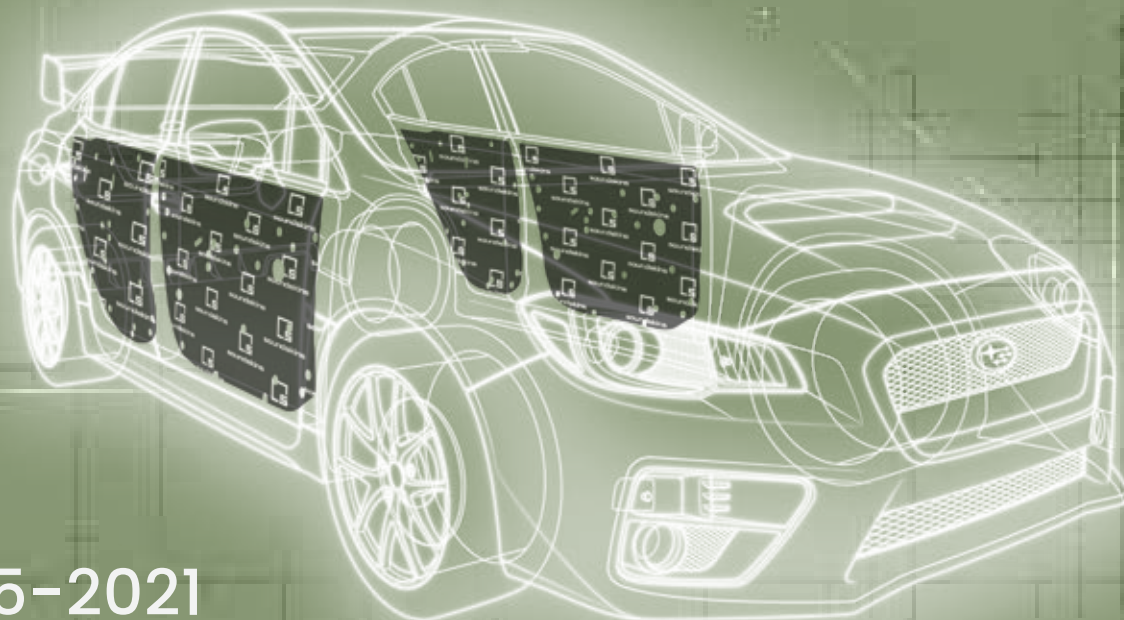

Our team of industry professionals start by mapping out the interior panels of each vehicle and hand cutting a template with surgical precision. We then use a CNC process for the perfect cut each time. No bleeding edges, no improper fit and best of all, no wasted material due to incorrect measurements!

A DIY dream in a box and a professional's number one objective – saving time. This is one shortcut you will not regret.

Our kits include a variety of popular trucks and cars with many more to come, so stay tuned for our next releases.

MOTORCYCLE SPECIFIC KITS

So, you love to ride loud.

We know that when you ride, you love the feel of the fresh air, the power under your feet, and the open road. But you want to hear and be heard. Well, you've come to the right page.

Introducing our lineup of sound enhancing kits for your motorcycle. Our motorcycle-specific kits will reduce vibration and eliminate those annoying rattles while drastically increasing your sound quality. We have created kits for your saddlebags, speaker lids, fairings, and fairing speaker pods that will let you experience your music like never before.

Don't let the car guys have all the fun. Create your own playlist and let the good times roll!

CAMPER & COMMERCIAL VEHICLES

Whether you're about that van life, or if you drive large commercial vehicles, you want to be as comfortable as possible on the road. The large sheet metal walls in your vehicle are a breeding ground for vibration and acoustic amplification. That's where SoundSkins comes in.

SoundSkins' thermal acoustic insulation material is the foundation that EVERY build needs for a quieter, cooler, and smoother ride. Our material reduces noise, lowers vibration, insulates, and even improves your audio system, all in ONE amazing material!

We also offer the first ever vehicle specific kits for popular van and truck models for worry-free installation.

You spent good money on your van, make sure you back it up with the proper foundation for your build with SoundSkins!
